<b>Weekly status:</b>
<p>During this past week we were unable to meet as a group due to scheduling conflicts. However, we continued our research into the project. Joe and Mike are continuing their search for an appropriate board to use. This coming week, we are consulting with professor Haibo He on the specifics of a board to use. Jason and Derek are continuing their work on the software side of the project. They hope to get a simulation up and running shortly, possibly in MATLAB. After we all return from the Thanksgiving break, we will spend a lot of time compiling the final report and finishing our class presentation.</p>
