<b>Weekly status:</b>
<p>This past week, we received some more sample code from Digilent to help us in our programming. The code was related to a method of communicating with and addressing the USB port. We met with our advisor this week to discuss the status of our project. Despite the fact that we have run into some unexpected problems, we are still on schedule for the project. During the next week, we will continue testing and implementing our code. We will also begin working on our interim report.</p>

**Weekly report is due to Senior Design Coordinator and TA by Noon Monday. Email submission is greatly preferred - submit using WebCT, email to sd@koala.ece.stevens-tech.edu or individual emails. Copy should be sent to advisor**
